

Pressure switches

Adjustable pressure switch

Adjustable pressure switch F3 series

Body: 27 mm hexagonal in zinc-plated carbon steel

Working temperature: from - 20°C to + 80°C

Switching frequency: 90 cycles/min

Operating point: adjustable through an internal screw

Adjustment setting: with Allen key 2 mm

Electric Features: Max. Load: 0,5 Ampère at 250 VAC; 0,15 Ampère at 110 VDC

Part n°	R1	Max. Press. (bar)	Reg. rate (bar)
F31	1/4"	25	1 - 10
F33P	1/4"	300	5 - 50
F35P	1/4"	300	10 - 100
➔ F37	1/4"	300	30 - 250
